M.S.G., (Monosodium Gluotmate) is a commonly used spice in many restaurants. Many ingredients naturally contain M.S.G.,, such as tomatoes, mushrooms & cheese. M.S.G. also is packaged when manufacturers bottle soy sauce, hai shien sauce etc. Please do not order any dish with brown sauce if you are very much allergic to M.S.G. For your information, our chef does not use M.S.G. as other restaurants do. Usage of M.S.G. also varies greatly since various qualities are available at various prices. If you are sensitive to M.S.G. or just don't want it, please inform us in advance.

There is no food that is as delicious & healthy as Chinese sauteed or stir-fried dishes. Even many local (non-Chinese) restaurants also include stir-frying skills in their cooking in this modern age. This special skill of cooking not only brings out the original delicious taste of the different ingredients, but also preserves the natural nutrition through very quick & skillful stir-frying.

Bon Appetit, and come back soon for more healthy & delicious food at Oceanview Chinese Restaurant. Please give this special vegetarian menu to all your interested friends. Your patronage is always appreciated by all the staff working at this very special Chinese Restaurant.
